PROJECTS

Portfolio Website

June 2024

- "I'm a frontend developer with a passion for creating responsive, user-friendly websites. I specialize in HTML, CSS, and JavaScript, constantly improving my skills to deliver exceptional web experiences.
- Developed a professional portfolio website that highlights my web development skills, project experience, and technical expertise using modern web technologies..

Weather Web

Sept 2023

- Developed a weather web app using HTML, CSS, and JavaScript that fetches real-time weather data from an external API. The app displays current weather conditions based on user input and features a responsive design for optimal viewing on all devices.
- Created a weather application that fetches and displays live weather data, featuring a clean, responsive design with dynamic user interactions

School Website

Jan 2024

- Developed a school website using React.js, featuring dynamic components for course listings, event calendars, and contact forms with a responsive design.
- Designed and implemented a school website using React.js, focusing on user-friendly interfaces and interactive features such as course catalogs and event calendars.

Simple File-Encryoter-Decrypter

Feb 2024

- Developed a Simple File Encrypter-Decrypter using Python and Flask, providing secure file encryption and decryption with a user-friendly web interface.
- Built a web tool for file encryption and decryption using Python and Flask, ensuring secure data processing and easy file management.
